

## **Dr. Engy Kabel**

Engy Kabel is a highly accomplished researcher and expert in the interconnected fields of Environmental Governance, Environmental Management, Economics, and Law, bringing over 14 years of professional experience in both academic and specialized consulting environments.

Her strong foundation is supported by a comprehensive education, including a Ph.D. in Environmental Management (2018-2023) from Ain Shams University, supplemented by a Master's Degree in Law (2008) and a License in Law (2006), all from Ain Shams University.

Engy recently enhanced her technical capabilities by completing a Data Analysis Diploma training in 2024. Professionally, she served as an Independent Consultant through an agreement with Oliver Wyman FZ LLC (USA-Dubai) from 2022 to 2023, where she finalized the revision and analysis of several Environmental Regulations for the Kingdom of Saudi Arabia (KSA). Prior to this, she was an Associate Researcher from 2016 to 2021, focusing on various Environmental Regulations, and published notable research titled, "Towards Administrative mechanisms for applying environmental Governance to the Waste Management Sector in Egypt" in 2022. Engy possesses excellent computational skills, including MS Word, Power Point, Excel, and Internet use, and is proficient in both Arabic (Mother tongue) and English (very good written & spoken). She also holds a Human Resources Diploma from British Cambridge College.

Her diverse background includes full-time Teaching Experience as an English Lecturer in Cairo (2007-2008 and 2009-2010) and Sales Experience as a Sales Officer at Amico-Tech Tele Communications Company (2004-2007). Furthermore, she is a Board Member of the Egyptian Water Partnership NGO and has participated in numerous international programs and conferences focused on Legislation, Administration, Arbitrations, and Litigation.
