Action Summary- Implementation of WP8 local campaigns

During **November and December 2025**, the students of the **Mandoulides Schools** in Thessaloniki, Greece, under the guidelines of the involved staff of **the European Public Law Organization (EPLO)** implemented the **five child-driven awareness campaigns on EU values at local level (WP8) of the EU-Childocracy project**, as they had been designed during April 2025.

A total of **152 students from Greece (92 female and 60 male participants)** actively participated in five awareness campaigns that combined visual and interactive communication methods to address important social issues. These campaigns were designed to engage students and raise awareness within the school community and beyond, reaching peers outside the school as well.

The implemented five child-driven campaigns on EU values at local level that were the following:

- The **Importance of Learning First Aid (CPR)** campaign utilized a **social media post** to highlight life-saving skills while promoting EU values such as solidarity, mutual support and responsibility and the right to safety, care, life and well-being. The short video post aimed to raise awareness on how we can all make a difference, as long as we act, share knowledge, and take initiatives for the common good.
- A **debate on Smoking** held in the premises of Mandoulides Schools on **Thursday 18/12**, among the students of Mandoulides School and the students from the Experimental School of Thessaloniki, allowed them to exchange ideas and present informed arguments, regarding the causes and consequences of smoking, reinforcing the right to **healthy life, human dignity, and solidarity, while emphasizing the importance of respect and cooperation among people with different viewpoints.**
- **School Violence and Bullying** were addressed through a **podcast** that encouraged open discussion and reflection, emphasizing the causes and consequences of bullying and highlighting the importance of human dignity, equality, respect for human rights, and the rule of law. The podcast explored questions such as: What are school bullying and cyberbullying? Who is usually the victim, and who becomes the bully? What are the causes and consequences of bullying? What is the crucial role of the bystander? How can we stand up, speak out, and take action? Finally, it examined the powerful (and sometimes dangerous) role of social media in these dynamics.

- **Awareness of Cyberbullying** was delivered through a **short video** that promoted non-discrimination, equality, human dignity, respect for human rights, and responsible digital behavior within the rule of law.
- The issue of **Harassment** was highlighted through an **impactful poster campaign**, which was created and painted by the students themselves and is exhibited in a very central place within the Mandoulides School, underlining the importance of non-discrimination, equality, human dignity, respect for human rights, and the rule of law.

Together, these initiatives fostered collaboration, creativity, and a deeper understanding of real-world challenges while strengthening students' awareness on shared European values.
