---

Dr. Allam is an international sustainable development expert with over 33 years of experience across global, regional, and national projects. He specializes in integrating economic, social, and environmental aspects to improve quality of life and promote sustainable investment in natural resources and green jobs.

At the start of 2026, Dr. Hossam Allam serves as the Chief Executive Officer and Founder of **SIHub - Sustainability and Innovation Hub**. This consultancy firm specializes in supporting businesses and governmental organizations by converting sustainability goals into actionable and scalable solutions that achieve tangible environmental, social, and economic outcomes. SIHub delivers services across both the European and MENA regions, with established offices in Estonia and Egypt.

Dr. Allam served for 31 years at the Center for Environment and Development for the Arab Region and Europe (CEDARE), an international diplomatic organization headquartered in Egypt. His most recent position was Programme Director and International Expert within the Sustainable Growth Programme. CEDARE was established at the request of Ministers responsible for environmental affairs in the League of Arab States.

Dr. Allam received his Ph.D. from Plymouth University in the UK, his M.Sc. from the University of New Haven in the USA, and his B.Sc. from the School of Engineering at Ain Shams University in Egypt.

Dr. Allam has overseen more than 40 national and international projects in the last decade across diverse fields, including resource efficiency, solid and electronic waste management, green and circular economies, sustainable transportation and tourism, energy, and ICT applications for sustainability. These initiatives were primarily conducted in collaboration with governmental bodies, the EU Commission, UN agencies, as well as Arab and European nations. Dr. Allam has delivered technical assistance to national, international, and civil society organizations to strengthen their institutional resources and capacities. Additionally, he has participated in numerous key meetings, conferences, and training programs, serving as both a participant and keynote speaker.
