Patient Safety

MALPRACTICE 2026

A new international platform on medical malpractice

MALPRACTICE 2026 brings together clinicians, forensic experts, legal professionals, academics, insurers, health managers, and patient safety specialists to examine medical malpractice through a multidisciplinary lens. The 2026 edition focuses on **Obstetrics & Gynecology**, one of the most sensitive and high-risk fields in medico-legal practice.

Why this conference matters

- The first **BAFS** international conference series dedicated specifically to medical malpractice
- 2026 thematic focus: **Obstetrics & Gynecology**
- Strong relevance for forensic medicine, legal medicine, expert witness practice, and patient safety
- Bridges clinical practice, forensic evaluation, law, ethics, insurance, and healthcare management
- Designed for clinicians, forensic experts, legal professionals, academics, insurers, health managers, and researchers
- **Hybrid format:** participate on-site in Istanbul or online
- Istanbul, Türkiye | **08–11 October 2026**
